NEWS OF THE SOUTH SIDE

VISITING THE CITY

J. S. Robertson, of Cranbrook, Ont., is a visitor to the city. He is interested in real estate business and is a specialist of western real estate.

STEAMER GOES DOWN RIVER

The steamer City of Edmonton made a trial trip yesterday down the river to Clover Bar. On May 21st, it will carry an excursion to the Mackinac Island for the first time.

SOUTH SIDE PERMITS

The following building permits have been taken out at the South Side city office.

Frank W. Hest, lot 21, blk 176, garage, \$180.
Henry Harter, lots 27, 28, 29, 40, blk 218, R. L. 17, cottage, \$165.
D. Hard, lots 12, 13, blk 84, d.w.-line, \$180.
Ludwig Frenkel, lot 9, blk 82, R. L. 18, dwelling, \$2,800.
H. Jones, lot 15, blk 125, R. L. 17, house, \$150.
Frank Hest, lot 6, blk 9, A.L.C.-gate, house, \$150.

"KNOW EDMONTON FIRST"

The board of trade of Lethbridge are arranging an automobile tour around Alberta's Southern City. The tour is called "Know Lethbridge First" and a visit will be paid to various points of interest round about the city.

Such a procession on parade would be a good idea for the board of trade of Greater Edmonton.

At Lethbridge the itinerary occupies an estimated time of four hours but such a tour around Edmonton would take a greater time and might with the busy business men have to be done on the installment plan.

Thus for example, on one occasion the parade of the board of trade could visit the South side, crossing the bridge and taking in both east and west ends of the southern half of the greater city, making a spin down main street to see the grading camp of the C. N. R. and then on to the new line to Calgary, then returning to visit the prominent McKenna lake, the University and high level bridge and going back the panoramic view of the valley as seen from the South side.

There would be a good feature for Lethbridge if there was a tour for that feature of the program.

PUBLIC WORKS PROGRESSING

The public buildings under construction on the South side are progressing. The new post office on White avenue is receiving the finishing touches and when the interior is fully finished it will be ready for occupancy.

The new army home has nearly all the brick work done and should soon be roofed in.

THE FOUNDATION

The foundation is finished for the new public library and a street is already made on the erection of the new building.

The excavation is finished for the new hospital on the University grounds and when the contract is let the erection of the structure will proceed.

The new building at the University is making good progress and a large gang of men are busy at it.

The temporary school is finished on the University grounds and is being made on the other school building on the South side.

Holberton College will have a new building to add to its present main quarters. Kate Church has been renovated and decorated.

The high level bridge is steadily day by day taking shape and putting its way out across and above the valley.

The two paving companies have large gangs busy improving the streets. In another month or by the time of the amalgamation celebration on Decemtion Day, the fellow citizens of the greater city who come across the bridge will find their fellow citizens of Edmonton they will hardly be able to recognize the South side as the same place as that they used to call by the name of Strathcona.

ENTERTAINMENTS

THE MATINEE GIRL

Lewis and Lane have managed to pick out one of their cleverest little comedies for Thursday, Friday and Saturday. "The Matinee Girl" is stocked with funny situations and is sold to the amusement of the audience. The introduction of musical numbers.

The comedians also have an excellent opportunity to display their wit.

"THE WHITE SQUAW"

There is probably no character in history that has been more abused, misrepresented and falsely presented than the American Indian. It has remained for Della H. Clarke, in her romantic American drama, "The White Squaw," which will be the next week's attraction at the Empire, to show the aborigine as he really is. Miss Clarke has written an "Indian story," but a story for the stage.

THE PARKER SHOWS

There are minstrels and minstrels, but the Dixie minstrels, with the Parker shows No. 1 is "it."

The show management have gathered together a collection of colored boys and girls who are said to be the latest thing in singers and dancers, full of that bubbling humor for which the colored race is famous. Under a lamplight pavilion, under a big comedy musical entertainment, the Dixie minstrels offer an entertainment.

ment lasting one hour and thirty minutes. There have been heretofore no called plantation shows presented by rival organizations but has been the first show under the guidance of Con T. Kennedy, have assembled an organization of southern riders, cowboys and dancers that are said to be unsurpassed. The Parker show will be here on Monday, commencing Monday May 27th, at the baseball carnival.

"IN WYOMING"

"In Wyoming," one of the finest productions of the day will be seen at the Empire Theatre, Friday and Saturday. Perhaps not since "The Virginian" has the stage been "swept" as here as so many, as many and so irresistable as Mr. Mack's "The Virginian". The show has appeared in fiction and stage again with his own hand and will entertain with a six-act play. The thing about Mr. Mack's cowboy, that has appeared so forcefully is that he is real.

After a consideration of the recommendation of the jury for leniency towards the prisoners on account of the "undoubtedly pure motives underlying the agitation," Judge Coleridge said: "If the prisoners had shown contrition I should have considered the jury's recommendation, but as they have openly declared that they mean to continue to break the law I cannot make them first-class misdoers. They are guilty of an offense for which they are liable to two years' penal servitude."

Victoria Day

Friday is Victoria Day—a day of holiday merrymaking. Whether on inland traveling, alone, or most probably in company—or whether you will spend the day in town, it is certain that you will need something new to mark the occasion. It may be a suit or summer frock or coat or hat or shoes; it may even be only a new tie. But whatever your requirements may be in Men's Wear.

D. Shugarman's

is the place to get it. While ordinarily the prices on all goods are most favorable to the purchaser, now that the big re-adjustment sale is in full swing prices are even lower, beyond recognition, and the quality of merchandise is maintained at the standard which has made Shugarman's Store the mecca of the well-dressed man.

COL. ROOSEVELT AND JUDSON HARMON WIN SWEEPING VICTORIES

Ohio State Preferential Primaries
Give Them Overwhelming
Majorities.

PRESIDENT TAFT'S HOME STATE IS AGAINST HIM

Taft Cannot Now Be Nominated
as Republican Candidate for President.

Columbus, Ohio, May 22.—A sweeping victory for ex-President Theodore Roosevelt for the Republican choice for president and for Governor Judson Harmon, for the Democratic choice, was the result of state-wide primaries held in Ohio yesterday, when one of Ohio's favorite sons, President Taft, lost in the contest. With the probability that there may be a change in the later returns come in, it is estimated that Roosevelt has a plurality of approximately 25,000 over Taft.

While the returns are meagre on the vote of delegates to the Republican state convention, which will meet at the six districts, Taft's defeat at large, it is thought the Roosevelt faction will dominate the convention. The Democratic party provided in its call that the candidate receiving the largest number of votes shall be permitted to name his own delegates at large to the national convention. This will give Governor Harmon an opportunity to further increase his number of delegates to the Baltimore convention.

Governing Harmon's majority, it is estimated, will exceed that of Colonel Roosevelt.

On the face of the returns up to 7 o'clock this morning from about 14 of the 33 counties of the state, President Taft will have lost 18 of the 12 delegates at large in each of the five districts. First, second, seventh, eighth, ninth, tenth, eleventh, twelfth, thirteenth, fourteenth, fifteenth and twenty-first, he will also have one delegate from the following districts: Fourth, sixth, eighth, ninth, tenth, eleventh, twelfth, thirteenth, fourteenth, fifteenth, sixteenth, seventeenth, eighteenth, nineteenth, twentieth, twenty-first, twenty-second, twenty-third, twenty-fourth, twenty-fifth, twenty-sixth, twenty-seventh, twenty-eighth, twenty-ninth, thirtieth, thirty-first, thirty-second, thirty-third, thirty-fourth, thirty-fifth, thirty-sixth, thirty-seventh, thirty-eighth, thirty-ninth, fortieth, forty-first, forty-second, forty-third, forty-fourth, forty-fifth, forty-sixth, forty-seventh, forty-eighth, forty-ninth, fiftieth, fifty-first, fifty-second, fifty-third, fifty-fourth, fifty-fifth, fifty-sixth, fifty-seventh, fifty-eighth, fifty-ninth, sixtieth, sixty-first, sixty-second, sixty-third, sixty-fourth, sixty-fifth, sixty-sixth, sixty-seventh, sixty-eighth, sixty-ninth, seventieth, seventy-first, seventy-second, seventy-third, seventy-fourth, seventy-fifth, seventy-sixth, seventy-seventh, seventy-eighth, seventy-ninth, eightieth, eighty-first, eighty-second, eighty-third, eighty-fourth, eighty-fifth, eighty-sixth, eighty-seventh, eighty-eighth, eighty-ninth, ninetieth, ninety-first, ninety-second, ninety-third, ninety-fourth, ninety-fifth, ninety-sixth, ninety-seventh, ninety-eighth, ninety-ninth, one hundredth.

The rural vote throughout the state seems against the Tafts. Farmers who have been detained by weather, preferred to put in their money to go to the polls. Justice La Follette obtained his heaviest vote in the twenty-first district, where he polled 4192 votes. In Fulton county La Follette got more votes than Taft. Of the 14 counties where he polled the largest vote, he was defeated in 12. In the 14 counties where he polled the smallest vote, he was defeated in 12. The exact vote in the Democratic

the fight was now over and won, and that he was too happy to express his feelings in words.
The column said he would not give up anything, however, until the very last, and would immediately prepare to leave New Jersey. He said he was not for a moment in doubt, but that he would carry this to the end, and would see his cause advanced with such new energy as he would be able to command. The column said he would not give up until he had made a formal statement.

MEDICAL MAN SAYS HE CAN TRANSPLANT LIMBS

Extraordinary Results of Experiment at Surgery Are Told by Prof. Carell, of Rochester, New York, After Kidney Was Removed.

Rochester, May 22.—The result of some extraordinary experiments in the removal of the kidney and the transplantation of the same and organs, has been given to the members of the Ontario Medical Association at the first public meeting of their thirty-second annual convention, by Prof. Carell, of the Rochester Institute, New York. At the present building of the University of Toronto, last night, Prof. Carell had undertaken experiments with a view to ascertaining whether it would be possible to transplant entire organs and limbs. He removed both kidneys from a dog and after five minutes elapsed, replaced one of them. The dog lived for two years and a half and died from other causes.

Prof. Carell told of transplanting veins and of the pulsation of arteries with portions of veins.

Consulting Urologist in London, London, May 22.—The Canadian urologist, yesterday pointed before the Royal Society and the Royal Society, the results of his experiments.

NON RUSTABLE D & A CORSET

Why so many wear this "Marmola Belt"

Quality and Price

D & A Corsets are popular simply because you can buy for a given price a better fitting and wearing D & A than if you bought any other kind.

A perfectly equipped factory in Canada, thus saving all custom charges, and so immense output, are real reasons why D & A No. 540, shown in cut, is known as a "Marmola Belt," specially designed for the rubber stout. It has a reinforced upper front, double steel bones, stepped top and bottom, six extra wide suspenders, etc., etc., and is sold at first-class stores at only \$2.50. Imported corsets of even quality would cost about \$3.50.

Every D & A is guaranteed.

SHOOTING GALLERY PETS CRUELY ILL-TREATED

Ignored Curators and Owners Given to Members and Ignored Members Thrown Into Their Dens—Protesters Warned by Humane Society.

Inspector Downes of the Humane Society, is keeping a sharp lookout for cases of cruelty to animals. In the course of his perambulations of the city the inspector's eye has noticed the hard lot of certain little captives inhabiting the windows of shooting galleries on First street. Several of these establishments have had a small monkey in the window for the purpose of attracting attention. The poor little captives, according to Inspector Downes, have been made to suffer various petty persecutions from cruel and unthinking individuals who for "sport" have given the little and male debilitated creatures and crows and even that lighted matches in their hands until the creatures screeched with pain. A bear cub a week or two old has been exhibited in one of the shooting galleries. Inspector Downes is taking the stand that if shooting galleries are to be kept open they must keep them by the counter or somewhere where they will not be subjected to the cruelty of any person who cares to ill-treat the animals for his own amusement.

No prosecutions have yet been instituted by Inspector Downes since his appointment by the Humane Society, but a large number of cases in which some intervention was necessary have been brought to his notice. The inspector hopes to work more by recommendation and advice than by prosecutions.

Inspector Downes is also keeping a careful watch on the teams of the city and he is moving that teamsters should get off their loaded wagons and walk whilst ascending steep hills in some cases while teams are driving the goods up from the flats two men walking on the team riding on the load, adding unnecessarily to the horses' task. Inspector Downes spoke to the teamsters on the hill leading to McDougall Avenue the other day with such good effect that the following day only one set of seven-year-old teamsters was observed riding up the hill with a loaded wagon.

Inspector Downes has an office in the city hall, where he will be glad to receive and to inquire into complaints respecting the treatment of animals.

BOARD OF TRADE BLAMED FOR TITANIC DISASTER

Motion Made in House of Commons to Reduce Salary of Hon. Sir John D. Trenchard, President of the Board of Trade, for "Lumbering and Dilatory Tactics."

London, May 22.—There was a hot debate today in the House of Commons concerning the board of trade, and the board of trade, which was moved to reduce to nine annually the salary of the Hon. Sir John D. Trenchard, president, because of his "lumbering and dilatory tactics in not carrying out the recommendations of the committee for the board of trade." Mr. D. Trenchard was largely responsible for all trouble following the Titanic disaster, Major Chamberlain said.

Mr. D. Trenchard's salary was £10,000 a year, and he was accused of neglecting his duties. Lord Charles Berkeley declared that he had never seen a practical man in a merchant ship. Sir John D. Trenchard, in his defence, stated that parliament was as slack as the board of trade and was equally responsible because it had not raised the question of providing adequate first class life-saving appliances before the Titanic disaster. He said the British and German governments had no understanding arrangements for an international conference on the subject, but that Great Britain had clearly informed the German government that it would put on account of the prospective conference, delay the taking of regulations which might be directly necessary.

ENGINEER CHIPMAN'S BODY HAS BEEN FOUND

Crossing Lesser Slave River on its journeying for Lawrence Chipman, Engineer Surveying Master of the River, Found His Life.

Some have been received from Athabasca Landing of the finding of the body of Lawrence Chipman, an engineer working on the survey of the Edmonton, Dunsmuir and H. C. railway, who was missed from the camp by his comrades on April 21st. The deceased was one of a party of four crossing along the Lesser Slave lake and on the sixth and seventh of April he had been out on the ice in the river, though it was broken up and there was fifty feet of open water above it to the shore and four miles lower down the river was quite open. On the eighth the deceased set out to cross the river by the new near Mirror lake, and was not seen again by his companions, who feared that he had been drowned. His body, had he been discovered, was taken from the river last Friday near Athabasca Landing after it had been in the water over a month.

The deceased was well known in the west and was well connected in the east. He was the brother of William Chipman, a Montreal lawyer, and the nephew of W. H. Stewart, a Winnipeg, and of Hubert Stewart, of Toronto.

Company an Arrivals.—Harris, May 22.—The Hamilton, Ontario, arrived here this morning at 10:30. The ship was the property of the Hamilton and was the only one of the kind that Britain still keeps in service.

BELGRAVIA

"A Place of Beauty and a Joy Forever"

PRICES \$450 AND UP

TERMS: One-Third Cash. Balance

6, 12 and 18 months

The Beginning of Things is the Time to Make Money—A Residential Beauty Spot

Easily accessible, one of the most important necessities of a good residential district is that it be easily accessible. Belgravia fills the bill. The projected line will go within a quarter of a mile and if the proposed park scheme to the south, now offered to the city, is accepted, a car line will traverse the whole subdivision from north to south.

A High Class Residential District

It is situated on the most picturesque bend on the river. There is not a single disfiguring object in view. "Every prospect pleases." The course of the silver Saskatchewan can be seen for several miles north and south. Directly opposite is the magnificent stretch of park land known as Laurier Park. To the north are the University grounds, around which is being built fine residences.

Belgravia will not be disfigured by shacks or any unsightly buildings as building restrictions will prevent this.

Belgravia is far enough away from the manufacturing district to be free from smoke and noise and other inconveniences incident to an industrial district.

Prices are less than those of surrounding districts. Values will soon appreciate. Go in now and secure this increment for yourself. This is your last chance to get good inside property at original prices.

All High and Dry Without Exception

Three Quarters of a Mile of Beautiful River and Ravine Lots.

Belgravia is in the same circle as Glenora and Capital Hill and is equally as picturesque as those subdivisions.

Photographic Developer Being Employed in Medical Science.

London, May 22.—An ordinary photographic developer is proving of the utmost value in an important scientific investigation by the St. Bartholomew's Hospital Pathological Laboratories in the cause of the degeneration of the blood vessels in the common form of arterial degeneration, said a member of the medical staff, the vessels become hard and brittle, due to the time and salts deposited on their walls.

The developer has changed the long-standing problem of determining the exact amount of the salts in the walls of the diseased blood vessels. A thin-section of the affected tissue is placed for a moment in a red aniline dye which stains deep pink any of the parts that have undergone fatty degeneration. This stain, however, does not attack the deposits of lime and salts which are often in a more advanced stage of fatty degeneration.

The section is therefore placed in a solution of silver nitrate. In the solution it is continued. The next step is to transfer the specimen after it has been washed in a bath of ordinary photographic developer. The silver nitrate and presents a silver just as it does on a photographic plate. Looked through the microscope, any particles of lime and salts present in the tissue stand out unmistakably jet black.
